FY2020 Strategic Plan

VISION
The community leader in driving code reuse and open source development to decrease code spend while increasing code quality in the federal government

MISSION
We help agency partners and developers save money and increase quality by promoting code reuse and educating and connecting the open source community

GOALS & IMPLEMENTATION FRAMEWORK

01 Connect and educate the technology community to drive awareness and adoption of open source development and policies

02 Enable sharing and inventory of open source code to support reuse, improve quality, and spur innovation

03 Support agency partners in reducing duplication, saving money, and driving efficiency across the federal government

01 COMMUNITY
02 PLATFORM
03 POLICY

FY 2020 OBJECTIVES

COMMUNITY

1.a Educate the community via live events and site content on open source development

1.b Create a community of practice for developers

1.c Provide a knowledge-base to assist developers in inventorying and publishing open source code

PLATFORM

2.a Utilize user-centered design to update the platform to be more community focused and provide easier access to government projects via more usable data

2.b Build reusable web components that comply with the U.S. Web Design System and share government-wide

2.c Automate, replicate and streamline DevSecOps processes to reduce costs and engineering time requirement

POLICY

3.a Support extension of policy requiring agencies to share 20 percent of new custom code as open source software

3.b Partner with federal agencies to implement and promote the policy

3.c Provide tools to procurement teams to help them apply the policy to federal IT acquisitions
